

Abhijeet Chauhan

Data Scientist | Machine Learning Engineer | AI Developer

Email: itsabhijeetchauhan@gmail.com | Phone: +91 7620175549 | LinkedIn: <in/abhijeet-chauhan>

Education

B.E. in Computer Engineering with Honors in Data Science

June 2021 – July 2025

St. John College of Engineering and Management

CGPA: 9.26

Relevant Coursework: Machine Learning, Data Science, Deep Learning, Artificial Intelligence, Linear Algebra

Internship Experience

Machine Learning & Generative AI Intern | Innomatics Research Labs

September 2024 – December 2024

- Designed and implemented ML pipelines, improving process efficiency.
- Applied MLOps and Generative AI to real-world use cases, enhancing predictive accuracy by 15%.
- Collaborated with teams to integrate AI solutions.

Advanced Data Analytics Intern | EY

February 2024 – April 2024

- Developed Power BI dashboards, enabling stakeholders to make data-driven decisions efficiently.
- Presented analytical findings to executive teams.

Artificial Intelligence and Cloud Intern | Edunet Foundation

December 2023 – January 2024

- Trained diverse machine learning models to address specific challenge, achieving a 90% success rate.
- Learnt about working of cloud and Artificial Intelligence.

Summer Intern | MathWorks

May 2023 – September 2023

- Studied image processing algorithms for business applications.
- Gained hands-on experience with MATLAB for advanced data modeling and analysis.

Projects

DMaven Pro

June 2024 – December 2024

- Developed a Generative AI-based Conversational Interface for Analytics using Python and NLP.

VisionSense AI | Innomatics Research Labs

November 2024 – December 2024

- Built an AI-powered assistive application to enhance visual content accessibility.

CodeFixer | Innomatics Research Labs

October 2024 – November 2024

- Built an AI-powered Python language code assistant to fix bugs and errors.

ShipFare

June 2023 – May 2024

- Collaborated on an XGBoost-based machine learning model to predict shipment costs with 92% accuracy.

PetME

June 2022 – May 2023

- Designed and developed a pet-sitting platform using Firebase backend and a frontend stack

Certifications

IBM AI Developer | IBM • December 2024

Data Scientist | Datacamp • December 2024

Data Scientist | 365 Data Science • November 2024

Machine Learning for Data Science Projects | IBM • 2024

Machine Learning with Python | IBM • 2024

Skills

- Technical Skills: Python, Java, C/C++, SQL, AWS, Web technologies, Statistical Analysis, Power BI, Excel
- Frameworks & Libraries: Pandas, NumPy, Matplotlib, Django, Flask, Scikit-learn, TensorFlow, MLOps
- Soft skills: Strong Communication, Team Collaboration, Analytical Thinking, Problem Solving
